GENTIS LIVING

CLEAN LINES. **STRONG CONTRASTS.**

Glossy lacquered surfaces combined with the raw textures of local woods are the heart and soul of Gentis. The mix of lacquer, wood and chrome as well as the wide choice of wall units, glass cabinets, lowboards, highboards and sideboards promises countless design possibilities. Backlit units turn into expressive soloists. Whether a large loft or cosy living room: the Gentis range is scalable, featuring an inspirational design language. As individual and versatile as people's preferences.

PASSIONATE. DIFFERENT.

The extravagant design furniture series Gentis shines with breath-taking combinations and expressive soloists. Straight-lined forms meet rounded ends, matt lacquer meets angular wood in natural trunk optics. The fascinating combination of modern elegance and vigorous naturalness is perfectly accentuated by the innovative lighting system. You can present your most beautiful design pieces in a display unit from Gentis. But also everything you do not want to show, finds its place in one of the many intelligently usable storage spaces.

Grey is a trendy yet timeless colour.

It combines the impression of natural stone with a modern big city atmosphere.

Grey is therefore a perfect choice for the Gentis mix of materials. The combination of knotted oak and grey high-gloss lacquer is therefore particularly well balanced.
