Usable bed inside height and space under bed	54
Important notes: quality of walls / assembly instruction	55

The finest design meets natural sensuality

Fine materials and an elegant form convey an ambience or uncongested expansiveness to the room. Urban elements fusion with more rustical wooden components to form an exciting yet relaxed and aesthetic arrangement.

Accents rearranged

Fine lacquered surfaces in a puristic look form an exciting contrast to the natural materials like unspoilt wood and soft leather.

A wardrobe or a work of art?

The integrated accent block of highly expressive wood not only draws everyone's glances magically, it also serves as an intelligent drawer unit.

Sleeping culture ranging from the subtle to the more expressive

There are several bed variations to choose from – the natural wood accent or the puristic wardrobe can be taken up in the bed unit. The second form is based more on soft leather applications and upholstered bed sides.

Light and illuminating

The freely suspended ancillary units characteristic of Gentis perfectly match the elegant design form, a lamp in a variable white shade underlines the hovering effect.

Wardrobes

Height reductions at intervals of 1.0 cm without surcharge

Hinge- and folding-door wardrobes according to the endless assembly principle

- Hinge- and folding-door wardrobes can be combined with one another
- With plain doors, with optional mirror
- With optional top LED lamp (12 V; 2.4 W)
- Design and intermediate units for a more open look
- Functional hinge-doors cloakroom units
- Drawer frames of the design and intermediate units in standard grey
- Extra-wide panorama units of folding-door wardrobes without centre partition
- Wardrobe interior carcass and wardrobe interior fittings in standard white lacquer version
- Standard interior fittings: 2 fitted shelves, 1 clothes rod
- Functional and high-quality **wardrobe interior fittings** (see „Wardrobe interior fittings“ type list)

Beds

- Beds with headboard in wood/lacquer version and upholstered application or with upholstered headboard, bed surround in wood/lacquer version or with upholstered applications; in four widths and three lengths
- Beds optionally in a hovering look
- LED bedside lamps

In combination with the hülsta Sleeping System, the beds guarantee highest sleeping comfort. With its high-quality spring base frames and mattresses, the hülsta Sleeping System provides the perfect prerequisites for relaxing sleep (see „SLEEPING SYSTEMS“ type list).

Ancillary units

- Console, optionally as wall unit, in one width
- A multitude of low-, side- and highboards, optionally as wall unit, cabinets and wall units in different heights and widths, numerous combinations are possible (also corner units)
- Different types of lamps

Quality features

- Wardrobe doors with handle and high-quality spring hinges
- Visually unobtrusive 2.5 mm drilled holes for wardrobes
- Centre partitions and end side-sections of wardrobes with special plinth adjustment
- **hülsta-Push-to-open/hülsta-SoftFlow**: drawers of design units in accent version, intermediate units and ancillary units with **hülsta-Push-to-open** or bottom drawer of design units on hidden bearings incl. auto pull-in feature with brake (**hülsta-SoftFlow**)
- **hülsta-MagicClose**: All wooden hinge-doors with door cushioning system

Note on „Blue Angel“ (RAL-UZ 38) and Emissions label of DGM (Class A)
It is possible that the requirements of the „Blue Angel“ and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups III and IV, depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

Important notes

<p>Glass cover shelves: Please be sure to state the required version of the rear-lacquered glass cover shelves in the order!</p> <p>Ceramic cover shelves: Please be sure to state the required version of the ceramic cover shelves in the order!</p> <p>Glass versions: Outer glass sides of cabinets and glass shelves behind fronts of bronzed glass.</p> <p>Accent units and cabinet compartment rear wall possible in all versions (exception: leather versions).</p> <p>Interior carcasse: The interior carcasse and the interior surfaces of the high-gloss lacquer versions are in a matching matt lacquer colour. The same applies to the straight outer side of the lowboards with rounded end at one side. The interior carcasse of the RAL matt lacquer and RAL high-gloss lacquer versions is optionally in a pure white, white, grey or silk grey matt lacquer. The same applies to the straight outer side of the lowboards with rounded end at one side. Please state the required version clearly in the order!</p> <p>Open section of the hinge-doors cloakroom units: The open section of the hinge-doors cloakroom units of the high-gloss lacquer versions is in a matching matt lacquer colour.</p> <p>Hinge-doors for end units: The sideward distance must be 27 cm (per door) to open doors fully.</p> <p>Standard interior fittings: Fitted wooden shelves are fitted behind doors at intervals of 2 Raster (exception: 12 Raster cabinets).</p>	<p>Metal substructure: Metal substructure optionally in high-gloss chrome or anthracite structured lacquer. Please state the required version clearly in the order!</p> <p>Functional frame: Functional frame always in white lacquer.</p> <p>Drawer frames in grey</p> <p>Wall units: If units are to be included as wall units, a wall bracket must be ordered.</p> <p>Combinations of floor and wall units: If floor and wall units are combined within an arrangement, there must not be any skirting boards in the room near the floor units, otherwise they must be removed.</p> <p>Max. load: Max. load of wooden and glass shelves (up to 70.4 cm width) as well as drawers: 25 kg Max. load of wooden and glass shelves (between 70.4 and 105.6 cm width): 15 kg Max. load of wooden and glass shelves (from 105.6 cm width): 10 kg Max. load of cover shelves: 35 kg per metre length for floor units.</p> <p>Please also note any existing maximum load information for individual units which may be stated later, the general load information for wall units as well as the important notes on the quality of walls at the end of this type list.</p> <p>hülsta-Push-to-open: Drawers and flap units with hülsta Push-to-open. All drawers on hidden roller bearings as fully pull-out units.</p>
--	---

Wall fitting

Important notes: Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units. That is why wall mounting should only be carried out by properly trained and qualified fitters. hülsta supplies materials for mounting units on walls for nearly all the units and which should be used for safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete in firmness class C12/15. For other materials (please see separate materials table in the wall composition chapter) we provide you with an assembly mortar set as an extra order. Please note that this assembly mortar set is also only suitable for the materials listed in the materials table. If walls are made up of other materials (e.g. plastered or lighter wall materials), one should use another method of mounting better suited to the load on site. Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. For the reasons stated above it is absolutely essential to enquire about the composition of any walls before signing any contracts.

Wall units

<p>If the 1 to 3 Raster units are included as wall units, a maximum load per unit of 15 kg per metre must not be exceeded for reasons of stability! Max. load 15 kg per metre:</p> <table><tr><td>17.6 cm width: 5.0 kg</td><td>140.8 cm width: 20.0 kg</td></tr><tr><td>35.2 cm width: 5.0 kg</td><td>158.4 cm width: 20.0 kg</td></tr><tr><td>52.8 cm width: 7.5 kg</td><td>176.0 cm width: 25.0 kg</td></tr><tr><td>70.4 cm width: 10.0 kg</td><td>193.6 cm width: 25.0 kg</td></tr><tr><td>88.0 cm width: 12.5 kg</td><td>211.2 cm width: 30.0 kg</td></tr><tr><td>105.6 cm width: 15.0 kg</td><td>246.4 cm width: 30.0 kg</td></tr><tr><td>123.2 cm width: 15.0 kg</td><td></td></tr></table>	17.6 cm width: 5.0 kg	140.8 cm width: 20.0 kg	35.2 cm width: 5.0 kg	158.4 cm width: 20.0 kg	52.8 cm width: 7.5 kg	176.0 cm width: 25.0 kg	70.4 cm width: 10.0 kg	193.6 cm width: 25.0 kg	88.0 cm width: 12.5 kg	211.2 cm width: 30.0 kg	105.6 cm width: 15.0 kg	246.4 cm width: 30.0 kg	123.2 cm width: 15.0 kg		<p>The wall units can only be fitted on absolutely solid walls. Light masonry is not suitable for this purpose.</p> <p>For each project please remember to leave a 2.0 cm gap at the top to be able to mount units.</p> <p>If units are planned as wall units, a wall bracket must be ordered.</p>

Labelling in type list drawings / assembly notes for wall units

<p>Labelling in type list drawings / assembly notes for wall units</p> <p>The majority of units have two wall mounting points (= number of base plates), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= base plates) is required, this is marked in the drawings in the type list with numbers in black boxes. Please be sure to note here the information and notes in the "Wall composition" chapter!</p>	<div><div>3</div><div>4</div></div>
--	-------------------------------------

Notes on delivery

<p>Notes on delivery: Gentis low-, side- and highboards consist of several component groups which are delivered separately and have to be assembled on site. These component groups are the cover shelf, the side end units and the main carcasse resp. the main carcasses.</p> <p>The fronts of the individual component groups are already fitted but can be disassembled on site.</p>

Concept and possible arrangements

Wardrobes

Wardrobes

- Hinge-door wardrobes can be combined with folding-door wardrobes, design, intermediate and hinge-doors cloakroom units
- Front mirrors and lamps against surcharge
- Unit outside widths hinge-door wardrobes:
42, 52, 82, 102 cm (basic units)
40, 50, 80, 100 cm (extension units)
- Unit outside widths folding-door wardrobes:
82, 102, 162, 202 cm (basic units)
80, 100, 160, 200 cm (extension units)
extra-wide panorama-units in 160/162 and 200/202 cm width without partition
- Unit outside widths design units: 179 and 214 cm
- Unit outside widths intermediate units: 80, 100 cm
- Unit outside widths hinge-doors cloakroom units: 160/162 and 210/212 cm resp. 129.2/131.2 and 179.2/181.2 cm
- Unit inside widths hinge-door wardrobes: 38, 48, 78, 98 cm
- Unit inside widths folding-door wardrobes: 78, 98, 158, 198 cm
- Unit inside widths hinge-doors cloakroom units: 48 and 98 cm
- Outside depth: 61.4 cm
- Inside depth: 56 cm
- Door opening angle: approx. 94°

Bed unit

Beds

- Beds with bed surround in wood/lacquer version or with upholstered application
- Beds with headboard in wood/lacquer version and upholstered application or with upholstered headboard
- Bed inside lengths: 200, 210, 220 cm
- Bed inside widths: 140, 160, 180, 200 cm
- Beds optionally in a hovering look

Consoles

- Consoles with rounded end at both sides
- Floor console with 2 drawers in one width
- Wall console with 1 drawer in one width
- Optionally with functional frame and lamps

Unit as floor unit, with wall bracket for wall assembly or on metal substructure

Unit as floor unit
incl. 1.8 cm high plinth adjusters

Unit with wall bracket for wall assembly
If the unit is planned as a wall unit, a wall bracket must be ordered. In this case the plinth adjusters are omitted.

Unit on metal substructure
The units can be planned optionally on a metal substructure (19.4 cm high, optionally in high-gloss chrome or anthracite structured lacquer). In this case the plinth adjusters are omitted.

Notes on accent units and cabinets

Accent unit

Notes on accent units:
Accent units possible in all versions (exception: leather versions).

Accent

Notes on cabinets:
Outer glass sides of cabinets and glass shelves behind fronts of bronzed glass; cabinet compartment rear wall possible in all versions (exception: leather versions).

Concept and possible arrangements

Functional frame

Functional frame

Functional frame for floor units of wood resp. for wall assembly of metal.
Functional frame always in white lacquer.

The functional frame enables the following functions:

- Distance frame for a hovering look
- Inclusion of LED lamp
- Hiding cables

Unit with functional frame for floor units

The units can be planned optionally with a functional frame for floor units.

Unit with functional frame for wall assembly

If you plan a functional frame for wall assembly, you require an extra wall bracket. In this case the plinth adjusters are omitted.

Unit with functional frame on metal substructure

The units with a functional frame can be planned optionally on a metal substructure (19.4 cm high, optionally in high-gloss chrome or anthracite structured lacquer). In this case the plinth adjusters are omitted.

LED lamps for functional frame

LED lamps for functional frame

The functional frame can be fitted with an optional LED lamp.
LED lamp incl. footswitch. Lamp switch optionally with a remote control unit possible (against surcharge).

LED lamp of the functional frame for floor units:

3-sided lighting

LED lamp of the functional frame for wall assembly:

4-sided lighting

3-sided lighting of functional frame for floor units

4-sided lighting of functional frame for wall assembly

Drawer and hinge-door for end units

Drawer and hinge-door for end units

The rounded end units of the low-, side- and highboards can optionally be fitted with drawers and/or hinge-doors. The sideward distance for the hinge-doors must be 27 cm (per door) to open doors fully.

Lowboard with end units with drawers

Sideboard with end units with hinge-doors

Special combinations

Please also note the mattresses and base frames in the “Sleeping systems” type list!

Special combinations are arrangements that are reduced in price. This price advantage is only available when the arrangement is ordered exactly as described. The special combinations can be enhanced by including accessories. These are charged extra.

Special combinations consisting of **bed unit** (bed with bed surround in wood/lacquer version and two consoles) and a **hinge- or folding-door wardrobe**. The price of an entire special combination (bed unit and wardrobe) can be found in the boxes shaded grey!

Important note:
The consoles are only available in the carcass/front versions of the wardrobe.

Special-sized products for special combinations are possible! Pricing:
special combination + 15% plus all the required special-sized products (see „Special-sized products“)!
Please note: Height reductions of wardrobes remain free of charge!

Important: choose a bed with bed surround in wood/lacquer version (all bed sizes possible – please state type no.; see page 18), two consoles (all console types are possible – please state type no.; see page 21) as well as one of the wardrobes listed below.

Notes on planning hinge- and folding-door wardrobes according to the endless assembly principle

Hinge- and folding-door wardrobes can be planned endlessly and combined with one another. Due to the various element widths one can create many total wardrobe widths. In this way the available floor space can be exploited to the full. For each wardrobe combination, the first element on the left is considered to be the basic unit, incorporating both outer side-sections. One can only include one basic unit in each combination. When adding on extension units, the right-hand side-section of the basic unit is employed as the end side-section of the complete combination. In the case of single-door hinge-door units as well as folding-door wardrobes one can choose between left- and right-hand hinges. The graphics shown below give you an excerpt from our wardrobe assortment. We suggest using design and intermediate units for creating an alternative look.

Standard interior fittings per unit: 2 fitted shelves, 1 clothes rod.
All interior surfaces are in white lacquer.

Dimensions

	Wardrobe height	Wardrobe height with top LED lamp
Heights incl. plinth:	229.6 cm	234.6 cm
	Height reductions at intervals of 1.0 cm without surcharge	
Depths:	61.4 cm	74.2 cm
Widths:	see pages 12-17	

Wardrobe examples

Hinge-door wardrobe

- Hinge-door wardrobes can be combined with folding-door wardrobes, design, intermediate and hinge-doors cloakroom units
- Front mirrors and lamps against surcharge
- Unit outside widths: 42, 52, 82, 102 cm (basic units)
40, 50, 80, 100 cm (extension units)
- Unit inside widths: 38, 48, 78, 98 cm
- Outside depth: 61.4 cm
- Inside depth: 56 cm
- Door opening angle: approx. 94°

Folding-door wardrobe

- Folding-door wardrobes can be combined with hinge-door wardrobes, design, intermediate and hinge-doors cloakroom units
- Extra-wide panorama units in 160/162 and 200/202 cm width, without partition
- Front mirrors and lamps against surcharge
- Unit outside widths: 82, 102, 162, 202 cm (basic units)
80, 100, 160, 200 cm (extension units)
- Unit inside widths: 78, 98, 158, 198 cm
- Outside depth: 61.4 cm
- Inside depth: 56 cm
- Door opening angle: approx. 94°

Hinge-door wardrobe with integrated intermediate unit

- Hinge-door wardrobes can be combined with folding-door wardrobes, design, intermediate and hinge-doors cloakroom units
- Design and intermediate units for a more open look
- Functional hinge-doors cloakroom units
- Front mirrors and lamps against surcharge
- Unit outside widths: 42, 52, 82, 102 cm (basic units)
40, 50, 80, 100 cm (extension units)
179 and 214 cm (design units)
80, 100 cm (intermediate units)
160/162 and 210/212 cm resp. 129.2/131.2 and 179.2/181.2 cm (hinge-doors cloakroom units)
- Unit inside widths: 38, 48, 78, 98 cm
- Outside depth: 61.4 cm
- Inside depth: 56 cm
- Door opening angle: approx. 94°

Lamps

All hinge- and folding-door wardrobes are available with optional top LED lamps. One top LED lamp 12 V; 2.4 W is fitted above each unit – 1-door or 2-door (exception panorama unit: two top LED lamps). If required, a top LED lamp can be fitted centrally above each door. Please include a sketch in all cases.

Switching is done by an external foot switch. A radio remote control is also available as an alternative, which is charged extra. The radio remote control incorporates one transmitter and one receiver which operate all the LED lamps. The foot switch is omitted when the radio remote control is employed.

Radio remote control with change of colour temperature

Cable apertures / subwoofer base cut-out section

	<p>Cable aperture K1 silver-coloured; Ø 8.0 cm</p> <p>It is possible to fit a cable aperture in the top and bottom shelf of the lowboard as well as in constructional shelves. The cable aperture can be made at the rear of the shelf. The position is in the centre of the compartment, distance from centre of aperture to rear edge of unit: 10.0 cm.</p>	<p>K1 -</p>
	<p>Cable aperture K2 silver-coloured; Ø 8.0 cm</p> <p>It is possible to fit a cable aperture in the rear wall of the lowboard. Positioned in centre of compartment.</p>	<p>K2 -</p>
	<p>Cable aperture K7 silver-coloured; 7.0 x 12.0 cm</p> <p>It is possible to fit a cable aperture in the top shelf of the lowboard. Positioned in centre of compartment, flush with the rear edge of the unit.</p>	<p>K7 -</p>
	<p>Cable aperture K8 silver-coloured; 12.8 x 3.2 cm</p> <p>It is possible to fit a cable aperture in the top shelf of the lowboard. The cable aperture can be made at the rear rim of the top shelf. Positioned in centre of compartment.</p> <p>The cable aperture K8 is not possible on room dividers.</p>	<p>K8 -</p>
	<p>Cable aperture K9 13.0 x 1.6 cm</p> <p>It is possible to fit a cable aperture in a fitted shelf or in the bottom shelf. The cable aperture can be made at the rear rim of the fitted shelf or at the rear rim of the bottom shelf behind the rear wall. Positioned in centre of compartment.</p>	<p>K9 -</p>
	<p>Cable aperture K11 4.0 cm high</p> <p>It is possible to fit a cable aperture in the rear wall of the lowboard. The rear wall is milled out below the top shelf. Positioned in centre of compartment. Usable width: compartment width minus 23.0 cm.</p>	<p>K11 -</p>
	<p>Cable aperture K20 silver-coloured; Ø 8.0 cm</p> <p>It is possible to fit a cable aperture in the partitions of the lowboard. Position: Distance from centre of aperture to rear edge of unit: 10.0 cm.</p>	<p>K20 -</p>
	<p>Subwoofer base cut-out section Base cut-out section 12 x 23.2 cm</p> <p>The sounds from the subwoofer pass out through the base cut-out section in the lowboard without hindrance. The exact position in the carcass is predetermined ex-works and cannot be altered.</p>	<p>14 -</p>

IR repeater set

IR repeater set
Infrared signal transmission set for operating media units behind non-transparent fronts. You can operate all the units in one compartment with one set. The following applies:

- One set must be used in each compartment. 2 transmitters can also be installed in large compartments in order to increase performance. In this case only one additional transmitter needs to be ordered.
- The transmitter must be placed in the direct vicinity of the receiver eye.
- Transmittable IR frequency band 20 – 60 kHz
- Up to 3 transmitters can be combined with one receiver.

It is possible to use 3 transmitters via 1 receiver including Master box. This enables simultaneous operation of 3 different furniture compartments or in critical situations it allows fitting out one furniture compartment with several transmitters in order to increase the performance in this compartment or to operate 2 end units placed next to one another.

The IR repeater set consists of:

- 1 receiver eye (Ø 3.0 cm) incl. standing bracket
- 1 electrical transmitter
- 1 plug EVG 12 V
- Cable clips

Please note the details stated in the operating instructions!

IR repeater set 1 receiver eye and 1 transmitter incl. standing bracket

Extra transmitter
2003 -

TV columns

TV columns can be rotated and adjusted in angle, for fitting on **floor lowboards with partition** (not possible with 2 Raster lowboards with 2 drawers on top of one another, lowboards with glass or ceramic cover shelf and wall lowboards). The TV column can only be fitted above a partition in the centre. The partition is provided with a cut-out section for cables (no surcharge). No drawers are possible below the TV column.

The revolving TV column 52 is suitable for flat screens with a screen diagonal of 38"-52" (96-132 cm), max. load: 35 kg
TV revolving column 52 compatible with VESA Norm standard:
min. 75 x 75 mm, max. 400 x 400 mm

The revolving TV column 65 is suitable for flat screens with a screen diagonal of 38"-65" (96-165 cm), max. load: 40 kg
TV revolving column 65 compatible with VESA Norm standard:
min. 75 x 75 mm, max. 800 x 400 mm

Flat screen supports

<p>Flat screen support WTL6 The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-216 cm (40"-85"); max. load: 45 kg. Suitable for Curved TV's. Flat screen support compatible with VESA Norm standard: min.: 200 x 200 mm max.: 600 x 400 mm</p> 	<p>Flat screen support THIN 545, ideally adaptable The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-165 cm (40"-65") and a maximum depth of 4.5 cm; max. load: 25 kg. Go to www.vogels.com to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 545. After a few steps you can see if your flat screen TV is compatible with the flat screen support. Not suitable for Curved TV's. Flat screen support compatible with VESA Norm standard: min.: 100 x 100 mm max.: 600 x 400 mm</p> 	<p>Flat screen support THIN 515 The flat screen support can be angled up to a max. 15°. It is suitable for flat screens with a screen diagonal of 102-165 cm (40"-65") and a maximum depth of 5.0 cm; max. load: 25 kg. Go to www.vogels.com to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 515. After a few steps you can see if your flat screen TV is compatible with the flat screen support. Not suitable for Curved TV's. Flat screen support compatible with VESA Norm standard: min.: 100 x 100 mm max.: 600 x 400 mm</p>

Radio remote control with change of colour temperature

<div>The lamps are normally operated by an external foot switch. The colour temperature of the LED lamps is cold white if a foot switch is used. A 4-channel radio remote control is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a radio remote control must be ordered. It is also possible to switch all channels on and off simultaneously with the “all on” or “all off” buttons. The radio remote control consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The foot switch is omitted when the radio remote control is used.</div>	
<div></div>	<div>2119</div> <div>-</div>

Special heights, special widths, special depths

Special heights

- Hinge-, folding- and sliding-door wardrobes can be reduced in height at intervals of 1.0 cm.
- Below eye-level we recommend fitting a top cover shelf made of panelling material.
Please state in order!
- Special heights in stepped versions (not possible on sliding-door wardrobes) at a surcharge.

Surcharge per step:

00030

-

Special widths

Only applies to hinge- and folding-door wardrobes

- Single-door units, left or right hinges, can be reduced down to 25 cm width (apart from profiled doors).
- Twin-door units can be reduced at both sides down to 50 cm total width (apart from profiled doors).
- Interior fittings such as drawers and other fittings cannot be reduced in width.
- For notes on width reductions on Multi-Forma sliding-door wardrobes please see special-sized products for Multi-Forma.

Special depths

- Depth reductions are made on side sections, plinths, cornices and shelves.
- Interior fittings such as drawers and other fittings cannot be reduced in depth.
- A max. reduction of 30.0 cm is possible on hinge- and folding-door wardrobes.
- A max. reduction of 9.0 cm is possible on profiled hinge-doors.
- For sliding-door wardrobes, a max. reduction of 30.0 cm is possible.
- Please note that for technical production reasons not every special depth can be achieved:
2.5 cm standard reduction between 0 and 2.5 cm
5.0 cm standard reduction between 4.5 and 5.0 cm
27.5 cm standard reduction between 27.0 and 27.5 cm

Notes on calculating sizes of sloping units

Side sloping

Sloping is only possible on single-door units. The door hinge (left or right) is positioned on the taller outer side of the unit.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- B 1 = Width of slope
- B 2 = Width of slope
- G = Total width
- S = Wardrobe width

Please note!

- If the slope cuts across the position of a handle, the handle of this door only is positioned further down in production.
- As floors, ceilings and walls are never exactly straight, the exact room size must be measured using a spirit level.
- If a cornice is fitted, please state if this is to be continued in the sloping section.

Rear sloping

Rear sloping is possible on all wardrobe units.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- T 1 = Depth of slope
- T 2 = Depth of slope

Special colours; Note on "Blue Angel" / Emissions label of DGM

Special colours

All the hülsta lacquer colours are possible for nearly all the hülsta ranges. Availability and prices on request.

Note on "Blue Angel" (RAL-UZ 38) and Emissions label of DGM (Class A)

It is possible that the requirements of the "Blue Angel" and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups III and IV, depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

Radio remote control with change of colour temperature

The lamps are normally operated by an external foot switch. The colour temperature of the LED lamps is cold white if a foot switch is used. A 4-channel radio remote control is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a radio remote control must be ordered. It is also possible to switch all channels on and off simultaneously with the "all on" or "all off" buttons. The radio remote control consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The foot switch is omitted when the radio remote control is used.

- The following points must be noted with the radio remote control:**
- The receiver must be positioned behind a rear wall or under plinth shelves (at least 20 mm space required under plinth shelves).
 - The total wattage power of all lamps included per receiver must not exceed 30 W.
 - 4 channels = 4 light groups
 - 1 light group = x lights
 - All lamps within a light group can be dimmed to the same brightness.
 - The change of the colour temperature takes place for all lamps in all light groups.
 - The radio remote control is not suitable for equipment operating on 110 V.
- Please be sure to note the operating and programming instructions!**

4-channel radio remote control with change of color temperature

4-channel radio remote control with change of color temperature

Type	2119	-
------	------	---

Examples of use (schematic diagrams)

Example 1

Lights inside a unit

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlight in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the LED spotlamps in the open compartment

Channel 3 operates (and dims) all the lights in light group 3, i.e. the LED spotlight in the right cabinet

Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

Example 2

Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlight and the LED light panels in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the LED spotlamps and the LED light panels in the centre cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the LED spotlight and the LED light panels in the right cabinet

Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

Example 3

Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlamps in the left, centre and right cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the top LED light panels in the left, centre and right cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the bottom LED light panels in the left, centre and right cabinet

Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

Usable bed inside height and space under bed

Note on usable bed inside height:

The support slats of the hülsta beds are delivered in the centre position, i.e. they can be adjusted by 3.2 cm upwards and downwards. If the slats are set in the lowest position, the **maximum usable bed inside height** is achieved. In the case of some beds, the bed inside height is comparatively low. This means that mattresses in combination with base frames that are somewhat higher are not held so well by the bed side sections. Please note that the usable bed inside height of beds with height adjustable support slats is reduced when these are set higher.

This is how to calculate the individual height from the data supplied with the base frames:

Example: bed and hülsta flex basic B base frame
(back and foot sections adjustable)

Max. usable bed inside height:
18.0 cm

approx. 12.5 cm for holding
mattress

5.5 cm total height of base frame
(example: hülsta flex basic B)

Note on space under bed:

The storage space underneath the base frame is calculated from the bed height minus the usable bed inside height.

Example bed: $42.2\text{ cm} - 18.0\text{ cm} = 24.2\text{ cm}$.

Wall composition / assembly instruction

Important notes:
The composition of walls must be ascertained before concluding a contract and be checked by a qualified fitter before assembly takes place.

Assembly may only be carried out by a qualified fitter under careful observation of the assembly instructions.

The plastic Rawl plugs supplied by hülsta as a standard set are only suitable for concrete \geq C12/15, if the wall composition and compression strength corresponds to the table below. Under no circumstances must a unit be assembled on light masonry.

Furthermore, we provide a mounting set with assembly mortar for the types of walls listed below (see assembly mortar set below). Again, assembly must be carried out by a qualified fitter under careful observation of the wall composition and assembly instruction. The compression strength levels stated below must be met under all circumstances.

Materials table
with a description of which sets are to be used with the following types of walls:

Standard set	Assembly mortar set only suitable for the materials stated below!			
<div>Concrete C12/15</div> <div>Compression strength \geq 15 N/mm²</div> <div></div>		Building bricks Mz 12 Compression strength \geq 12 N/mm ²		Solid blocks of light concrete V2 Compression strength \geq 2 N/mm ²
		Limestone blocks KS 12 Compression strength \geq 12 N/mm ²		Perforated blocks of light concrete Hbl 2 Compression strength \geq 2 N/mm ²
		Perforated sand lime bricks KSL12 Compression strength \geq 12 N/mm ²		Aerated concrete PP2 Compression strength \geq 2 N/mm ²
		Vertically perforated bricks HLz 12 Compression strength \geq 12 N/mm ² Bulk density \geq 1.0 kg/dm ³		

A different and more suitable type of mounting must be chosen by a qualified fitter in all other cases. hülsta cannot accept any responsibility for the choice of any other types of mounting! Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units.

Mounting sets

Labelling in type list drawings / assembly notes for wall units
The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Every support board requires four mounting screws.

3 = 3 support boards
4 = 4 support boards, etc.

One **assembly mortar set** is sufficient for up to a maximum of 3 support boards or 4 wall side-panels.

Important note: Depending on the composition of the wall (see wall types illustrated above), assembly must be carried out using the special assembly mortar set and a standard trade mastic tool which are the basic essentials for safe and clean workmanship.

Standard set
The standard set consists of 4 plastic Rawl plugs and 4 mounting screws and is sufficient for 1 support board. The standard sets are included in the packet of fittings to match the number of support boards.

Assembly mortar set for up to a maximum of 3 support boards consisting of:

9x injection retaining sleeve
9x screw-in sleeve
1x injection cartridge
2x static mixer
1x assembly instructions

Please use the mounting screws from the standard set (supplied free of charge).

Example of order:

- Add up number of support boards for all existing unit types
- Divide the sum by “3”
- Round up the result to a full number

= Number of assembly mortar sets required
