NEO – ENDLESS POSSIBILITIES.

Choose almost any desired colour or colour combination for Neo – matching the wallpaper or favourite objects in your home: it is easy to do using the RAL colour system. RAL colors are standardized colors that are assigned a unique number and are used in a range of color systems and color catalogs used worldwide. Irrespective of the colour you decide upon – the Neo collection from hülsta is the perfect choice for any colour trend.

Version: living room combination lacquer, core walnut, width: approx. 3.6 m

ENDLESS
PLAY OF
COLOURS
**FOR MORE
INDIVIDUALITY.**

NEO – MADE FOR INDIVIDUALISTS.

The design is simplistic and focusses on beautifully crafted details, an elegant mix of materials and clean lines. NEO makes individual planning particularly easy. Carcase units in many different sizes offer a wealth of design possibilities that are complemented by standard units, a side panel system and numerous panels. Lacquer colours in 1950 different shades from the NCS colour chart and cover surfaces in wood, lacquer, glass or ceramic add exciting accents. This versatility results in very individual combinations and extraordinary solutions.

Version: living room combination lacquer, width: approx. 4.1 m

Large and small combinations for every living or dining area can be created using a mixture of carcass units and a side panel system. Any width or height is feasible. Cleverly offset shelves create a generous look. Open compartments add a light-hearted touch.

PRECISION
WORK.
**PERFECTLY
STAGED.**

Neo combines innovative living trends and a cosy atmosphere with utmost flexibility. Freestanding carcass units in grey lacquer and natural oak in combination with wall-mounted units create individual solutions. Cleverly offset, the units offer plenty of storage. Handle-less fronts underline the simplistic look. Drawers and doors featuring push-to-open technology are easy to operate. Open compartments featuring glass sides create a stunning contrast to closed fronts and give the units above a floating appearance.

ORGANISATION AND FUNCTIONALITY IN A STRIKING DESIGN CHOICE.

Technology elegantly concealed: The Neo panel can be positioned anywhere on the wall and be lit from the rear. It is available in four widths and in all of the Neo lacquer and wood finishes.

- 01 A 6 mm slim ceramic cover surface finishes lowboards, sideboards and highboards.
- 02 Wood and lacquer cover surfaces are available in material thicknesses of 10 and 29 mm.
- 03 8 mm cover surfaces made from rear-lacquered glass are available in pure white, white, grey or silk grey. Optional cable inlets in the cover surfaces allow perfect cable management.

Version: living room combination silk grey lacquer, natural oak, width: approx. 2.9 m

Particularly attractive: Neo compartments featuring glass sides whose load-bearing U-sections not only add transparency to the closed fronts but also give the units above the appearance of floating.

Different metal frames in high-gloss chrome or anthracite structured lacquer create a very individual look.

Version: room divider high-gloss white lacquer

Whether in the living room, dining room or as a room divider – Neo is very versatile.

If a lot of display space is required, the classic sideboards and glass cabinets with glass inserts are the ideal choice. The small glass section of the white high-gloss lacquer highboard is a real eyecatcher. Subtle lighting gives the furniture and the room a different outlook.

LIVE QUALITY

hülsta stands for quality made in Germany. As a tradition-rich, third generation family business from the Münsterland, hülsta values perfect craftsmanship in combination with modern manufacturing processes, whilst always focussing on the responsible use of natural resources. hülsta therefore exclusively uses wood from sustainable sources and never tropical wood, thus reducing transportation and protecting the environment. That is why all modular units and base frames from hülsta have been carrying the “Blue Angel” since 1996, an award for products that are low in emissions and environmentally friendly. hülsta – durable furniture in harmony with nature.

All of the products are extensively tested and are subject to strict quality criteria. For new purchases, hülsta always grants a 5-year guarantee. Always inclusive: unlimited support for questions and requests regarding furniture from hülsta.

www.blauer-engel.de/uz38

The “Blue Angel” is subject to strict criteria. All modular units and base frames from hülsta have been awarded the “Blue Angel” since 1996 for being environmentally friendly and low in emissions.

Since 1974, hülsta has been part of the Deutsche Gütegemeinschaft Möbel (DGM) (German Quality Association for Furniture) and complies with their high standards for quality and consumer protection. hülsta effortlessly complies with the strict criteria that they use for their product testing.
