Dining tables	3-17
Dining chairs	18-41
Cover collection, information on types of fabric and names of materials, leather care set	42-43

You can furnish your home as comfortably and exclusively as you like, without the right table and matching chairs the family's main meeting place is missing. This is where you come together to discuss things, to play games or to sit down to a nice meal. More and more flats and houses today have a separate dining room. And a kitchen, a living room or a representative hallway invites you to fit out a classy dining area.

Tables, chairs and cupboard units from hülsta that match absolutely perfectly in their design, material and colours. Whether the table needs to be round or rectangular, for four, eight or twelve persons, the table collection from hülsta provides you with a comprehensive choice. Wood, glass, lacquer surfaces or partly in metal, avantgarde or traditional, modern or natural: hülsta offers you some really unexpected alternatives.

Dining tables

The materials receive the highest quality of processing in the manufacture of our tables to guarantee long-term use without detriment to functions or appearance. The pull-out features are easy to operate so that surprise guests can be catered for quickly. Fine wood surfaces matching the hülsta ranges, a mixture of materials and an impressive range of sizes enable you to choose to suit your needs.

Dining room chairs

It is hülsta's aim to provide you with perfect sitting comfort that enables you to sit comfortably for hours, linked with safety in functions, perfect workmanship and a long life. That's why we place great value on the interior of the upholstery. hülsta only employs high-quality materials: the wood for the substructure, the springs and the different upholstery materials. By employing the most careful craftsmanship we produce furniture that is durable and retains its form even when under intensive use and units that are still just as comfortable to sit on after many years.

T 70

EXCELLENT FOR A CREATIVE HOME.

With its simple beauty, the T 70 dining table is an elegant yet robust masterpiece. Designed by Martin Ballendat for hülsta as a solitary table, it offers an inviting amount of space. Cast, tapered metal legs in a glossy or dark finish merge flush with precious wood veneered tabletops in oak, ash and core walnut – a beautifully balanced look. The table owes its light, generous charisma partly to its cleverly concealed substructure.

Product spectrum

- Table lengths: 180 cm, 220 cm, 260 cm
- Table width: 95 cm
- Table height: 74 cm
- Space between floor and table: approx. 69 cm

Product features

- Tabletop with lengthwise veneer, 4.6 cm thick
- Table substructure powder coated anthracite or aluminium glossy

T 81

AN INVITATION TO ENJOY TOGETHER.

The T 81 brings people closer together. Table legs don't get in the way, even with a large cheerful gathering. With its gentle curves, the table creates an inviting focal point – for a sumptuous Sunday breakfast, a meeting with friends and everything else that can be discussed at a round table. On a rounded column frame rests a beautifully shaped tabletop of your choice: from warm wood veneer or solid wood, with cool ceramic or rear-lacquered glass.

Product spectrum

- Table lengths: 120 cm, 140 cm, 160 cm, 180 cm, 220 cm, 240 cm
- Table widths: 110 cm, 120 cm, 140 cm
- Table height: 75 cm
- Space between floor and table: approx. 72 cm

Product features

- Tabletop: for wood versions: 3.0 cm thick tabletop, lengthwise veneer; for ceramic and rear-lacquered glass versions: 0.6 cm thick tabletop of ceramic resp. rear-lacquered glass on 2.2 cm thick baseboard in the same version as the table column
- Table column: column powder-coated pure white or anthracite on baseplate with felt underside

T 90

THREE STEPS TO YOUR INDIVIDUAL TABLE.

With the T 90 dining table, your ideas define the range: Many features of this modern table system can be customised. Your preferences in terms of material and colour have a direct impact onto the design. Matching or contrasting with the elegant tabletop, the side covers in the frame continue the selected finish right into the frame. The extension mechanism is made from high-quality aluminium and can be easily operated with one hand.

Product spectrum

- Table lengths: 140 cm, 160 cm, 180 cm, 200 cm, 220 cm, 240 cm
- Table width: 95 cm
- Table height: 75 cm
- Space between floor and table: approx. 67.5 cm

Product features

- Tabletop, extension boards and inset 4-legged substructure: for wood and lacquer versions: 1.6 cm thick; for ceramic versions: 0.6 cm thick ceramic tabletop on 1.0 cm thick black baseboard
- Direction of grain for wood versions: tabletop and inset lengthwise, extension boards transvers
- Table substructure: the substructure is of aluminium

Functions/technology

- Frontal slide extension: the table legs stand at the table corners even when it is extended because the substructure moves with them
- Extension system: easy running aluminium extension system on roller bearings
- Extension boards with user-friendly single handed operation
- Table extremely stable even when extended
- Low frame height due to extra thickness of frame material provides extra freedom for legs

Tabletop and extension boards

For the T 90 with 4-legged substructure it is possible to order the tabletop, the extension boards, the substructure and the inset 4-legged substructure in different versions. In this case please state the version no. for the tabletop, the extension boards, the substructure and the inset 4-legged substructure separately.

* Extension boards in ceramic versions can only be fitted in tables with tabletops in ceramic versions.

** The 4-legged substructure of metal can be supplied optionally with a veneer coating (at a surcharge).

*** If the inset 4-legged substructure is ordered in a ceramic version, the tables are charged in price group IV.

Please note: Ceramic tabletops cannot be combined with wooden extension boards.

Please state all the required versions clearly in the order!

T 100

ELEGANT LOOK.

A table design with almost no right angles: This special feature gives the T 100 dining table its elegant balanced appearance. Supported by the powder-coated metal frame, solid oak tapers from the centre to the filigree table edge. The flowing shape blends organically into any interior design and perfectly matches the solid wood range Persis.

D 27

THE BEST OF BOTH WORLDS.

Slim as a chair and comfortable as an armchair, the D 27 fits perfectly at the dining table, in the living room or in the conservatory. The wide variety of frames, colours and finishes transform its shape, but not its character. The D 27 convinces with lightness – in design and weight. The clear form of the free-swinging metal frames is matched by the elaborate finish with high-quality seams and contours on the inner arm section.

Product spectrum

- Chair with or without armrests
- Armrest version: open armrests
- Substructure: free-swinging metal substructure

Product features

- Seat bowl of 3-dimensionally profiled plywood with intricate upholstery of high-grade cut foam
- Substructure of tubular steel, optionally black powder-coated or high-gloss chrome
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces

- Black powder-coated
- High-gloss chrome

Cover materials

- High-grade leather in contemporary colours
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are possible (price group = best cover price group)

D 27

LIMITLESS DIVERSITY.

The diversity of the D 27 chair series is impressive: Thanks to many options for the seat shell, frame, upholstery and cover material, you can individually configure your chairs.

Product spectrum

- Chair with or without armrests
- Armrest version: open armrests
- Substructure versions: arched substructure or crossed substructure made of metal

Product features

- Seat bowl of three-dimensional formed plywood with intricate upholstery of high-grade cut foam and additional padding/foam (approx. 1,240 g)
- Tilt function (conference bracket with 12° angle, held in start position, 2 pre-set spring firmness levels soft and firm); only possible in the versions with the crossed substructure
- Individual choice of substructure with 2 substructure versions:
an arched substructure made of tubular steel or a crossed substructure made of aluminium with a pillar made of steel, optionally black powder-coated or high-gloss chrome
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces

- Black powder-coated
- High-gloss chrome

Cover materials

- High-grade leather in contemporary colours
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. S 300

MADE FOR GOOD CONVERSATIONS.

Individuality and seating comfort are the hallmarks of the S 300 chair series: The seat structure with straps and Nosag springs makes even prolonged sitting pleasantly comfortable. Various options for backrests and frames in solid oak, solid walnut and a choice of round or square tubing allows for individual chair configurations.

Product features

- Substructure as a square tube construction of metal (20 x 20 mm) or a round tube construction of metal (Ø 15 mm) or of solid wood (40 x 40 mm)
- Voluminous upholstery of substructures, seat composition with belts and Nosag springs
- Optionally with or without armrests
- With optional horizontal leather seam on the backrest
- Seat upholstery composition: polyether foam with a volume weight of 40 kg/m³
- Back upholstery composition: polyurethane foam with a volume weight of 21 kg/m³
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Seams

Back without
leather seam

Back with
horizontal
leather seam

Colour combinations

With the S 300 it is possible to order the reverse side of the chair back with the sides of the seat surface and the front side of the chair back with the seat surface in different covers. Please state clearly in the order! When exchanging versions from different cover price groups, the higher cover price group is always charged.

Note: approximately the top 5 cm on the reverse side of the chair back are in the same cover version as the front side of the chair back.

Front side of
the chair back

reverse side of
the chair back

Reverse side of
the chair back
with the sides of
the seat surface

Surfaces substructure

- Powder-coated anthracite
- Ground stainless steel
- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

S 500

SURPRISINGLY DIFFERENT.

Magnificent design achieves a surprising amount using simple shapes. The round upholstered back of the S 500 not only shapes the design with a seamless transition to the substructure, but it also turns the chair into a classic.

Product features

- 4-legged substructure of metal or solid wood
- Back section and seat of beech plywood, 17.0 mm or 10.5 mm thick
- Seat and back upholstery composition: polyurethane foam with a volume weight of 40 kg/m³ (RG 40)
- Max. loads: chair 120 kg, bench 400 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces 4-legged substructure

- Aluminium glossy
- Powder-coated anthracite
- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather in contemporary colours
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

S 700

SIT THE WAY YOU LIKE.

Anyone looking for a modern skid-base chair with a stunningly beautiful shell seat or an ultra-comfortable cushion chair on a swivelling star frame will certainly find what they are looking for. Countless variations – and above all the one, individual favourite chair – can be created from a choice of 3 wood or metal frames, 2 seat shells and numerous covers in even more colours: With or without armrests, in trendy textile or delicate leather Nubuck-Touch, with all-round piping, a two-colour cover or with a soft, integrated seat cushion. All designs are wonderfully compatible to allow for a colourful table.

Product features

- 3 different substructure versions, optionally:
 - Arched substructure of tubular steel construction, Ø 14 mm, with a powder-coated surface
 - Star-shaped substructure, revolving, with a surface of aluminium
 - 4-legged solid wooden substructure, chair legs narrowing from 36 to 25 mm
- Optionally with or without armrests
- Back and seat of plywood, stable in form, 1.1 cm thick
- Composition of upholstery of seat and back: polyurethane foam with a volume weight of 42 kg/m³
- Extra upholstery: polyether foam with a volume weight of 23 kg/m³
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Colour combinations

With the S 700 it is possible to order the reverse side of the chair back and the front side of the chair back with the seat surface in different covers. Please state clearly in the order! When exchanging versions from different cover price groups, the higher cover price group is always charged.

S 900

COMFORTABLE AT THE BAR.

The exquisitely upholstered bar chair makes an extensive breakfast at the kitchen counter or a long conversation at the bistro table or house bar a pleasure. It combines design and comfort to create an exceptionally inviting upholstered chair.

Product features

- Bar chair
- 2 different substructure versions: powder-coated substructure or solid wooden substructure
- 2 chair heights, matching the table heights 90 cm and 110 cm
- With step protection
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces 4-legged substructure

- Powder-coated anthracite
- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather in contemporary colours
- Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

S 1000

EVERY TREND IN ONE CHAIR.

This brilliant, upholstered chair immediately shows how comfortable it is. Available in firm or casual upholstery in many fabric and leather options. Casual upholstery looks fascinating in velour. Three frame versions and the option of different inner and outer covers turn the S 1000 into a multi-talent that fulfils all your wishes. Other special features include the low armrest for a comfortable seating experience. The optional horizontal seam in the back section is proof of the meticulous craftsmanship and further enhances the elegant design.

Product features

- Chair optionally without armrest or with high resp. low armrest
- 3 different substructure versions: 4-legged substructure, arched substructure and star-shaped substructure, optionally powder-coated in hülsta standard colour shades or special colour shades
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Seat shell: High armrest, low armrest, without armrest

Substructures: Star-shaped substructure, arched substructure, 4-legged substructure

Chair S 1000 with low armrest and casual upholstery.

A horizontal seam is possible against surcharge.

Chair S 1000 with high armrest, horizontal seam in the back part and firm upholstery.

The horizontal seam is possible against surcharge.

Surfaces substructure

- Powder-coated in hülsta standard colour shades and special colour shades

Cover materials

- High-grade leather in contemporary colours

Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.

- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

Colour combinations

With the S 1000 it is possible to order the reverse side of the chair back and the front side of the chair back with the seat surface in different covers. Please state clearly in the order! When exchanging versions from different cover price groups, the higher cover price group is always charged.

List of versions
